

Dear parents and carers,

With warm weather forecast this week, we will be implementing temporary warm-weather arrangements from Tuesday 23-6-26 to Thursday 25-6-26 to help students feel comfortable and ready to learn. Students may choose to wear their normal school uniform without a blazer, or they may wear the Hawkley Hall High School PE kit.

If PE kit is worn, it must not include tracksuit bottoms; shorts or skorts only are permitted.

Please note:

- Own clothes are not permitted.
- Students wearing school uniform must wear school shoes, not trainers.
- Students wearing PE kit must wear the full Hawkley Hall High School PE kit not items of their own clothing.
- Expectations regarding jewellery and other standards remain in place.

This is not usual practice. Although temperatures in the 20s can feel warm, school uniform is normally expected. However, with temperatures forecast to reach the 30s in the coming days, we have spoken to students, who have requested this temporary flexibility for these days only.

Please support your child by ensuring they have a refillable water bottle. Filling stations are available before school, at break, and at lunchtime, but not during lessons. Please encourage your child to use them at appropriate times to maximise learning.

At present, temperatures are expected to fall back into the 20s on Friday, so full school uniform (with blazers off) will be required on Friday. I will provide a further update on Thursday evening if this changes.

Kind regards
